1. **Statement of Background.**
   The Massachusetts Coalition for a Healthy Future (MCHF or the Coalition) was formed to promote the successful passage of the Question 1 tobacco tax initiative campaign of 1992 and to establish the Health Protection Fund. The 25-cent per cigarette pack tax increase lowered tobacco consumption – especially among youth – and provided funding for a statewide tobacco control program and a K-12 comprehensive school health education program.

Since that time, the Coalition has maintained its commitment to public health by advocating for optimal funding of the Massachusetts Tobacco Control Program, by educating the legislature about the value of the program and by mobilizing grassroots volunteers. In addition to protecting the spirit and intent of Question 1, the Coalition has advocated for statewide laws that complement the work of local tobacco control efforts and cannot readily be achieved at the local level.

2. **Mission Statement.**
   The mission of the Coalition is to advocate for funding and policies that support and advance tobacco control and prevention with the intention of reducing tobacco use, the leading cause of preventable death and disease in the Commonwealth, and reducing the public’s exposure to secondhand (environmental tobacco) smoke. The Coalition strongly recommends that members join a Committee or a Workgroup as outlined in Section 8 of these bylaws.

3. **General Strategies.**
   Coalition strategies to achieve our mission are to:
   - Maintain optimal funding for the Massachusetts Tobacco Control Program;
   - Develop and implement innovative public health policies, based upon sound scientific and public health principles, to reduce tobacco use in the Commonwealth;
   - Promote local and statewide public health policies that reduce the exposure of Massachusetts citizens to environmental tobacco smoke, including smoke-free worksites and public places;
   - Support local tobacco control initiatives and promote state and federal measures that will enhance these initiatives;
   - Oppose statewide and federal measures that may preempt local tobacco control initiatives or weaken tobacco control standards for the Commonwealth;
   - Direct Multistate Master Settlement Agreement (MSA) funds in Massachusetts toward the stated purposes of the MSA: tobacco control and public health initiatives;
   - Educate the public regarding the need for stronger statewide and local tobacco control policies and regarding the purposes and uses of the MSA;
   - Expand access to treatment programs, including nicotine replacement therapy, and promote coverage of these programs by Medicaid and state employee health programs as well as private insurers and managed care providers;
   - Foster "best practices" in tobacco control and serve as a national model for their
implementation; and

- Collaborate on regional interstate activities.
