Increasing Diversity of Older Adult Population

- ▶By 2040, racial and ethnic older adult population is expected to grow 115% compared to 29% of white (non-Hispanic) population
- ▶ Racial, ethnic, and socioeconomic disparities that accumulate over the life course increase risk for poorer health in older adults

Public Health Has Contributed to Longevity— Public Health Can Support Healthy Aging

- Preventive and other quality health services
- > Social determinants of health: housing, transportation, built environment
- > Supporting family caregivers
- Nutrition and physical activity
- > Emergency preparedness
- > Rural health challenges
- > Social isolation; mental health and well-being
- > Elder abuse prevention

Tirust for Americas Health

What Is an Ideal Age-Friendly Health Department?

- ► Leadership and dedicated staffing
- Dedicated funding for broad healthy aging programs
- State Health Improvement Plan prioritizes healthy aging
- Formal collaboration required across all agencies
- > Data dashboard includes older adults
- Emergency preparedness planning includes older adults

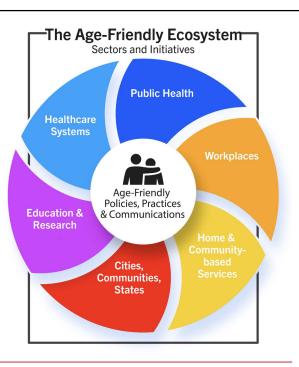

15

Age-Friendly Ecosystem

What is it?

A comprehensive, collectively built, ever-expanding platform whose goal is to improve quality of life for older adults through enhanced, collaborative impact.

Trust for Americas Health

Age-Friendly Public Health Systems

- Explore & expand public health roles in healthy aging
- Advance partnerships
- Expand federal, state, local, tribal and territorial engagement
- Address social determinants of health and equity

Tirust for Americas Health

17

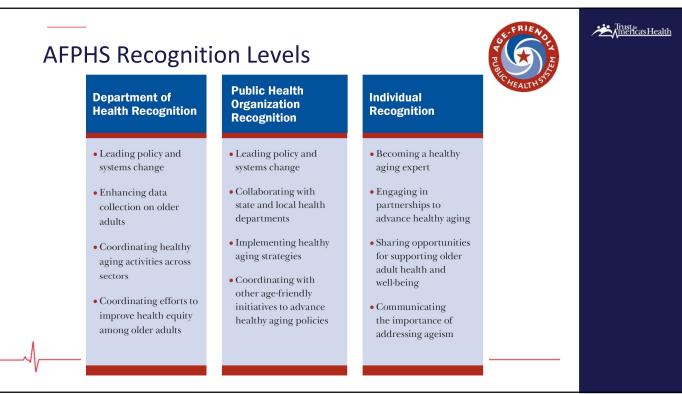

AFPHS Recognition Program

- Incentivize state and local health departments to adopt healthy aging as a core public health function
- Build knowledge and capacity
- TFAH provides technical assistance and promotes recognition
- Trainings focus on equity: data, combatting ageism, improving health equity, social isolation, social determinants of health

AFPHS Recognition: Tennessee Department of Health
