The image shows a dark blue background with the County Health Rankings & Roadmaps logo in the top left. In the center, the text "Join the conversation" is displayed in large white font. To the right, there are two windows. The left window is titled "Question and Answer" and contains a red oval highlighting the "Welcome to Q&A" section, which says: "Questions you ask will show up here. Only host and panelists will be able to see all questions." Below this is a text input field with the question "Where can I find strategies to address children in poverty?", a checkbox for "Send anonymously", and "Send" and "Cancel" buttons. The right window is titled "Webinar Chat" and shows a conversation: "Me to Everyone" from "JL" saying "Hi Everyone, I'm James, from Madison, WI." and "Zoomhost CHRR to Everyone" saying "Hello James and welcome to today's webinar." Below the chat is a section titled "Who can see your messages?" with "Everyone" selected. A note says "Your text can be seen by panelists and other attendees".

5

The image shows a dark blue background with the County Health Rankings & Roadmaps logo in the top left. The main content is a large white title "Group agreements" in bold. Below it is a numbered list of 7 items: 1. Listen actively, 2. Participate fully, 3. Speak from your experience, 4. Lead with curiosity, 5. Be conscious of body language, 6. Expect ambiguity, and 7. Be accountable.

10

Im/migrant Well-Being Research Center

- Mission: to conduct high-impact research and translate it for policy-makers and the public
- More recently, our mission has pivoted to document current realities shaping im/migrant well-being
- Podcast, Im/migrant Lives
 - <https://rss.com/podcasts/immigrant-lives/>

12

Legal status and health

- In-between and temporal statuses affect immigrants' physical and mental health
 - Physiological effects: cortisol dysregulation, sleep disruption, anxiety, and long-term health risks
 - Fear of detention, deportation, and family separation affects population-level stress

13

Lived experiences as source of public health data

14

UNIVERSITY of
SOUTH FLORIDA

Im/migrant Well-Being Research Center

Patterns across immigrant communities

- Patterns differ by region/state/city
- Common themes:
 - Immigrants stopped going to work or took jobs closer to home
 - Avoid driving
 - Housing instability
 - Fear of family separation and social isolation
 - Avoid hospitals and doctors' offices
 - Avoid law enforcement
 - Stress passed along to US-citizen children

15

How enforcement affects children and youth

- Children internalized fears
 - Hypervigilance
 - Anxiety
 - Loss of appetite
 - Concern for classmates
 - Lack of focus in school
- Effects of family's social isolation
- Older children took on adult roles and responsibilities
 - Relinquished aspirations such as attending college

16

What can public health practitioners do?

- Promote trauma-informed care and clear confidentiality policies
- Evaluate policies (e.g., remove unnecessary ID or documentation barriers in clinical settings)
- Strengthen relationships with trusted community messengers and immigrant-serving organizations

17

Resources

- Im/migrant Well-Being Research Center reports: the latest can be found at <https://usf.to/IWRCReport2025>

Ivy O. Suriyopas
Vice President of Programs
Grantmakers Concerned with Immigrants and Refugees

Speaker

Ivy leads GCIR's program and policy strategy and development, funder education and engagement, and funder mobilizing and organizing. Previously, she was a program officer at Open Society Foundations, where she focused on immigrant and refugee justice, managing a multimillion-dollar portfolio and developing a strategy challenging the systems rooted in the racialized treatment of immigrants throughout US history. Prior to joining OSF, she was an attorney and director of the Anti-Trafficking Initiative at the Asian American Legal Defense and Education Fund, working at the intersection of migrants', workers', and women's rights, providing legal representation and advocating for policy changes informed by the lived experiences of her clients.

20

The Nation's Only Immigrant-Focused Philanthropy-Mobilizing Organization

- **Mission** We mobilize philanthropy to advance immigrant justice and belonging
- **Vision** GCIR envisions a society in which everyone thrives no matter where they are born
- **Pillars of GCIR's work**
 - **Push philanthropic practice** to move beyond incremental change and take bold action for the greatest possible impact on immigrant and refugee communities in the long term
 - **Create a political home for funders** prioritizing immigrant rights and justice so they can strategize and coordinate in a generative environment of similarly oriented funding partners
 - **Provide a platform for movement leaders** to amplify their voices and increase their impact with a particular focus on historically marginalized communities
 - **Facilitate public-private partnerships** to advance immigrant justice at the federal, state, and local levels

21

Values and Guiding Principles

Grantmakers Concerned with
Immigrants and Refugees

Values and Guiding Principles

Love
We extend grace, compassion, and generosity to ourselves and each other.

Solidarity
We center those affected by systems of oppression and work toward our mutual freedom.

Dignity
We center self determination, justice, and healing in our relationships.

Power
We promote the ability of the immigrant and refugee justice movement to create, build, and utilize their agency.

Abundance
We affirm that there is enough for everyone to thrive and imagine a future of collective liberation.

22

GCIR MEMBERS

Thank you to GCIR's 120+ members.

With your membership dues, we can continue to:

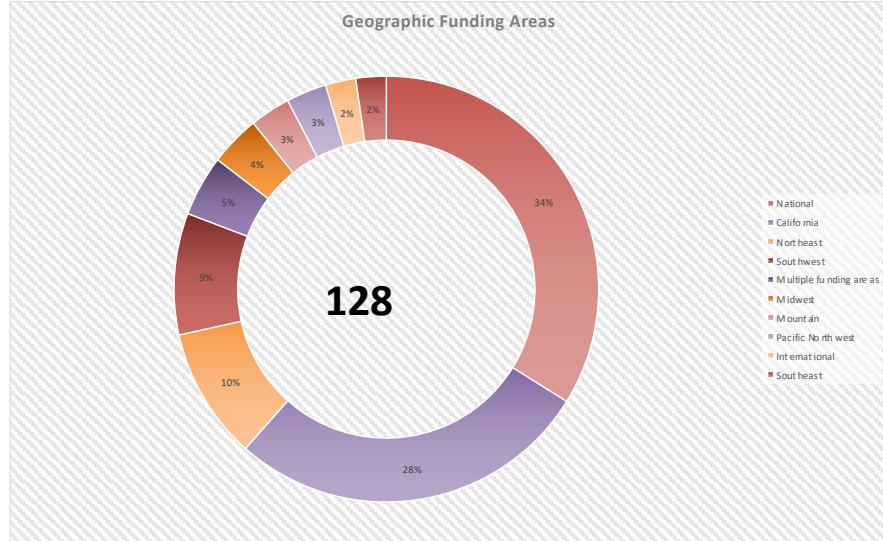

- **Keep philanthropy up to date** on the latest developments
- **Mobilize timely and strategic philanthropic responses**
- **Catalyze high-impact grantmaking** to bring about long-term systemic change

Funders interested in becoming members, please visit

The People and the Rule of Law

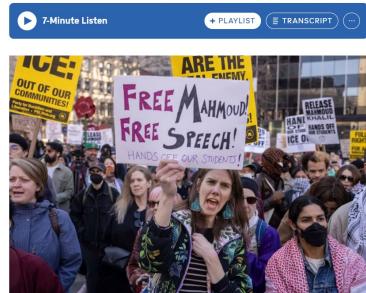

'Citizenship won't save you': Free speech advocates say student arrests should worry all

APRIL 8, 2020 6:00 AM ET

HEARD ON MORNING EDITION

By Lilia Fadel, Taylor Haney, Arezou Rezvani, Kyle Gallego-Mackie

Protesters attend a demonstration in support of Palestinian activist Mahmoud Khalil in New York City on March 10. Yuki Iwamura/AP

Immigration arrests violated the Fourth Amendment, Chicago lawyers argue in court

Attorneys accused two government agencies of arresting 25 people in the Midwest without warrants and probable cause in federal court on Friday.

By Adriana Cardona-Hagedorn | Apr 10, 2020, 4:11pm EST

Michelle Lourie, Deputy Legal Director of the ACLU of Illinois, speaks about immigration arrests during a press conference following a hearing at the U.S. District Court of Appeals in Chicago on Friday, April 10, 2020. About 200 protesters gathered to demand emergency injunctions against Health

Behind Trump's push to erode immigrant due process rights

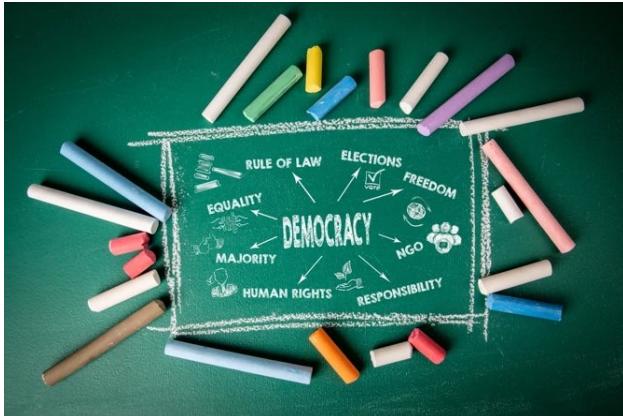

In his first 100 days, Donald Trump has attacked due process rights in the immigration system, which could lead to more permanent consequences than his first term.

A person holds a sign with a photo of Kilmar Abrego Garcia as people take part in a protest organized to 'Protect Migrants, Protect the Planet' on April 19, 2020, in New York City. | Adam Gray/Getty Images

25

Immigrants as the Tip of the Spear in Confronting Authoritarianism

- **Anti-Authoritarian Funder Strategy Session**, November
- **Anti-Authoritarian Webinar Series Funder Lessons & Recommendations**, November
- **Three-Part Anti-Authoritarian Funder Learning Series**, August-October

26

Values and Guiding Principles

- **Belonging** Everyone has the right to live in safety and dignity, regardless of where they were born
- **Shared Prosperity** We are interconnected with all members of our communities. When immigrants thrive, our whole community prospers
- **Mutual Responsibility** Interdependence is a strength, and shared challenges require collective solutions
- **Care** Systems should promote human well-being, not just efficiency or control
- **Abundance** Imagine a shared future that is better for all. There are enough resources for everyone

27

Challenges to Practicing Solidarity

- **Aversion to risk** Fear of retaliation and retribution
- **Scarcity mindset** Concerns about insufficient resources
- **Inability to recognize the problem** This is beyond party politics and reflects genuine danger to our democracy

29

Health-Related Impacts

- **Ability of households to pay for basic necessities** Families are losing income-earners, people are losing work authorization, and people fear living their lives
- **Impact on mental health** In addition to the already-present trauma for many migrants, living in liminal status or the threat of being pushed into liminal status is generating fear and instability
- **Food (in)security** Increased enforcement is disrupting the food chain
- **(Un)affordable housing** Targeting of low-paid workers is stifling access to affordable housing, which was already in short supply
- **Impact on care economy** Escalated immigration crackdowns are keeping care workers from working
- **HR 1 will shift the cost burden to states** Stricter work requirements and removal of access to immigrants
- **Loss in tax revenue** Mass deportations of immigrants impact a major source of tax revenue

30

Other Impacts

- **People fear leaving their homes.** They are not going to work, sending their children to school, attending medical appointments, shopping for groceries
- **Law enforcement's time and capacity diverted.** The shift in priorities to targeting immigrant communities is making participation in public life more difficult, impacting voting, exercises in free speech and assembly, and fomenting distrust of public systems
- **Constitutional protections are ignored.** Due process, right to assemble, protection against unreasonable search and seizure, the disregard for checks and balances, the loss of rule of law, and so on threaten engagement in public life
- **Chilling of speech.** The targeting of students, academia, and civil society actors has led to self-censorship and fear of expressing dissent
- **No longer a model.** The State is terrorizing children in schools and neighbors in our community

31

Recommendations for Philanthropic Action

- Provide **flexible, long-term, general operating support** grants
- **Reduce barriers** to entry, and minimize reporting burdens
- Grant **beyond the five percent minimum**, and ensure investment strategies align with grantmaking goals
- Balance between national organizations and state/local efforts, with intentional strategies supporting **smaller, grassroots, impacted-led groups**
- Build **authentic, supportive relationships with grantees**, including exploring participatory grantmaking models and other trust-based strategies
- Leverage the **foundation's voice and influence** through communications and advocacy
- **Fund collaboratively** with colleague institutions through aligned or pooled grantmaking approaches

32

Recommendations for Immediate Action

- **Move money now**, including drawing down endowments
- While general support remains the gold standard, issue project-specific grants focused on **protective strategies**, such as physical and digital safety measures, mutual aid and community defense, legal support and litigation, and wellness and sustainability
- Grant **medium- and long-term strategies**, such as addressing sector defense and stability, local organizing and power building, and narrative and culture change work
- Issue grants to organizations led by and for immigrants, LGBTQ, women, BIPOC, disabled, and other **communities that bear the brunt of destructive actions of autocratic governments**
- Strive for **deep, accountable relationships with frontline groups**, including supporting those who stand up and are criminalized as a result
- **Do not comply in advance**, and determine your red lines now and your plan for responding if those lines are crossed

33

Recommendations for Public Health Departments and Practitioners

- **Sensitive locations protocols** Hospitals and health facilities, schools, and houses of worship historically considered safe spaces
- **HIPAA and private patient information**. Preserving the integrity of the information about the patient and/or their families is critical to their care
- **Licensure** The pandemic demonstrated that we have the ability to make licensing more accessible to respond to essential needs in service of public health
- **Children in immigrant families** Immigrants are younger than US-born populations, and their children are an integral part of our communities
- **Patients that are isolating or isolated** Support patients and their families who are not able to seek medical assistance
- **Layers of mental health and trauma**. Address the multiple levels of mental health challenges immigrants and their families are facing through every leg of their journey

39

Messaging Toolkit

- Access to healthcare is a universal value
- Healthy families make healthy communities
- When immigrants avoid care out of fear, everyone's health is at risk

Sample language:

Healthy families equals healthy communities

We value safety and dignity for all in our community

We help create opportunity and provide stability

We respect human potential and contributions

We care for our friends and neighbors

 County Health Rankings & Roadmaps

CHR&R's related resources

- Power and rules
- Housing and income
- Social connectedness

The diagram illustrates the University of Wisconsin Population Health Institute Model of Health. It features four main categories arranged vertically: Population Health and Well-being (green), Community Conditions (blue), Societal Rules (orange), and Power (purple). Each category is connected to a list of determinants on the right. Population Health and Well-being is connected to Length of life and Quality of life, which are further connected to Life span, Physical health, Mental health, and Life satisfaction. Community Conditions is connected to Health infrastructure, Physical environment, and Social and economic factors, which are further connected to Health promotion and harm reduction, Clinical care, Housing and transportation, Air, water and land, Climate, Civic and community resources, Education, Income, employment and wealth, and Safety and social support. Societal Rules is connected to Written rules and Unwritten rules, which are further connected to Institutional practices, Laws and policies, Budgets, Governance, and Worldviews, culture and norms. Power is connected to the same set of determinants as Societal Rules.
