Least Healthy in US

Healthiest in US

National Average

State Average
What’s new
Refining data groupings by race and ethnicity
Types of data

- Demographics
- Health Outcomes
- Health Factors
Health Data

The annual data release provides a revealing snapshot of how health is influenced by where we live, learn, work, and play. The snapshots provide communities a starting point to investigate where to make change.

County Demographics

The health of a place results from past and present policies and practices. The land known as Genesee County, along with the entirety of the U.S., has been home for many thousands of years to hundreds of Indigenous nations. Native Land Digital strives to create and foster conversations about the history of colonialism, Indigenous ways of knowing, and settler-Indigenous relations.

Genesee County, Michigan is Metropolitan and is connected to the city of Flint. In Genesee County, 18.2% of the population lives in a low population density area. Genesee County contains neighborhoods which experienced intentional disinvestment through Federal HOLC Redlining between 1935 and 1940.
Health Outcomes

Genesee County

Least Healthy in US

National Average

Healthiest in US

State Average

Genesee County is faring worse than the average county in Michigan for Health Outcomes, and worse than the average county in the nation.
