

PRIORITIZATION MATRICES

Individual Scoring

Fill in the 7 priority issues below, then individually rank order each of the 7 issues one criterion at a time. Tally your scores and share them with your Table Team Recorder.

Criteria Definitions

This priority issue affects the majority of people with food insecurity
This priority issue likely has strong public support
This priority issue likely has strong support with key decision makers
It is economically viable to pursue this priority issue

(1=least important, 7=most important)

PRIORITY ISSUES	CRITERIA				TOTAL (add points for each issue)
	affects vulnerable people the most	strong public support	strong decision maker support	cost effective	

Table Team Scoring

Table team recorder: Add scores for each priority issue and divide by number of people at your table to get final score for each area.

Priority Issue	TOTAL SCORE (sum of scores for each priority issue)	AVERAGE SCORE (sum of scores for each priority issue divided by # of people at table)
